The Yellowknife Geoscience Forum is a joint initiative of the NWT & Nunavut Chamber of Mines and the Government of Northwest Territories – Department of Industry, Tourism and Investment and the Northwest Territories Geological Survey. It is an opportunity for leaders in the industry and our communities to connect on best practices, share scientific updates and advancements, and meet to foster partnerships that encourage, assist, and stimulate the prosperous, orderly, and environmentally responsible development and growth of mining and mineral exploration in NWT and Nunavut.

In light of the ongoing COVID-19 pandemic and our strong commitment to the health, wellness and safety of all participants and our community, we are pleased to have developed an innovative virtual conference for 2021 to continue to support the diverse membership, and interests of those who are involved and invested in NWT and the north's mineral industry.

The virtual Yellowknife Geoscience Forum will showcase conference favorites, available through a dynamic web app platform, to registered delegates, that include interactive technical and non-technical sessions, posters, and business promotion opportunities.

PROGRAM OVERVIEW

ON-DEMAND TECHNICAL PROGRAM:

Join us for pre-recorded presentations, available for on-demand viewing, at your convenience.

We are delighted to have a number of the speakers and authors participating in designated live chat-room interaction, to answer questions and connect on the dedicated conference web platform. See detailed Program Schedule (released November 15).

LIVE INTERACTIVE TECHNICAL & CORPORATE PROGRAM:

Join us for live-streamed keynotes and presentations, over 3 days, with opportunities for questions, comments, and discussion, on the dedicated conference web platform.

POSTER PRESENTATIONS:

Posters will be available for viewing, comments and discussion with authors and delegates throughout the conference.

SESSIONS DESCRIPTIONS:

Please visit us at www.geoscienceforum.com for detailed session descriptions.
