

Baffinland
Iron Mines Corporation

**2nd through 3rd year
GEOLOGY STUDENTS AND
RECENT GEOLOGY GRADS**

Baffinland Iron Mines Corporation is seeking 2nd through 3rd year Geology students, and recent Geology graduates for seasonal employment at its Mary River Project on northern Baffin Island in Nunavut. Individuals should be physically fit, highly motivated and have the ability to work in a rugged environment in a remote setting. **Positions to be filled for the 2010 drilling and exploration program include the following:**

- **Junior Field Geologists** – assist with property and regional scale mapping, surface sampling and reconnaissance traversing
- **Drill Site Geologist / Environmental Scientist** – drill hole monitoring and environmental site management
- **Environmental Technician** – assist with field monitoring and sampling programs, laboratory analyses and database management

Previous work on an exploration and/or drill program would be an asset. There may also be the possibility of continued employment with Baffinland, after the field program for the right candidate.

Please submit your CV and a letter detailing your interest in working for Baffinland to:

Thomas R. Iannelli, Ph.D.
